Questions & Answers

What are your payment terms?

The session fee is due at the time of booking. Additional people and/or studio add-ons must be included prior to booking confirmation. Additional edited images, wall art, etc can be ordered after the session.

How long in advance must I book?

You will need to book a minimum of 4 weeks in advance of the shoot.

What if something happens and I need to reschedule?

Please phone me to re-schedule the shoot if you encounter an emergency that will involve postponing the shoot. Please try to give 24 hours notice, and I will be happy to reschedule your shoot.

Who owns the photos?

Ben Jamieson Photography retains ownership and copyright on all photos taken during the shoot. You are granted a full "Personal Use" license for the high resolution images you choose/purchase images, allowing you to make prints, upload the images to personal websites etc. You are not allowed to sell the photos, nor use them for any commercial purposes without permission from the photographer.

Am I obligated to buy a minimum number of prints/files?

Not at all. The session fee covers my time for the shoot itself, the initial work on the proofs, and the included file images.. If you do not wish to purchase any of the images after the session, there is no further cost. *Print credits are non-refundable.*

What should I/we wear?

Stay away from busy patterns/logos, stripes and bright colours, and anything that distracts the eye, so your clothes don't attract more attention than your faces and your photos don't date over time. Wear something that is comfortable for you and expresses who you are. Avoid clothing with conspicuous logos or words.

Try to co-ordinate your clothing, you don't have to match but do need to compliment each other - denim is always a good choice, with a plain coloured top. White is okay if for an individual portrait but it can be very stark on a bright day so make it only one option.

It's difficult if only one person is wearing it as they will stand out more than anyone else. Hats, necklaces, ponchos and other accessories (books, toys, etc) can look great in photos so please feel free to bring these along with you.

Darker colours have a somewhat slimming effect in a photograph. Lighter colours can have the opposite effect. You probably want to avoid clothes that will cast a reflective colour on your skin tone. The camera will readily pick up this reflected colour cast and render you somewhat off colour.

Bright reds, yellows, and oranges are common colours that can produce a colour cast.
